COUNTY AND WESTSIDE HEALTH SERVICES HOLD CHILD CAR SEAT CHECK

Monroe County Executive Jack Doyle today encouraged residents to attend a free Child Car Seat Safety Inspection on Saturday, June 30, 2001 at Westside Health Services, 480 Genesee Street, from 9:00 a.m. to 12:00 p.m. to ensure child car seats are properly installed.

"It is imperative that a child's car seat be properly installed in a vehicle if it is going to protect them during an unfortunate crash," said Doyle. "Scheduling a child car seat safety check is time well spent for saving the life of your loved one, especially if they are traveling in a seat that has been recalled."

Child car seat safety inspections should be scheduled in advance and the car, car seat and child should be brought to the checkpoint. Call 436-3040 ext. 232 to make an appointment.

In addition to car seat safety checks, patients of the Westside Health Services are invited to participate in health screenings as part of Westside's "Patient Appreciation Day."

Westside Health Services is located across from Wilson High School.

Sponsors of this event are the Monroe County Office of Traffic Safety, Westside Health Services and the Rochester Chapter of the New York State Academy of Family Physicians.
